

Sprue Candelabras 1

About

Standard “sprue wax” normally used to direct the flow of molten metal in investment casting is manipulated by hand to create the actual forms of these functional table sculptures. Stripping the idea of casting down to a primitive level there remains a strong connection to the materiality of the wax. Each design features a leather pad on the bottom to protect your table surface.

Materials

Cast Bronze & Leather

Specifications

Holds standard size candles

Metal Finish

Waxed, will patina naturally

Lead Time

Please inquire

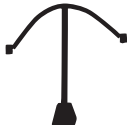

Base Price

\$2,800 USD
